**Hi %FIRSTNAME% %LASTNAME%**

Welcome to this latest e-Newsletter from the passionate dedicated volunteer team at **IIMHCO**: thought-leaders on **Perinatal Integrative Medicine**.

What an extraordinarily surreal time we have all been experiencing on this planet - the power of Gaia (Mother Nature) ! ... And the in-your-face reality that modern allopathic medicine doesn't have all the answers.

Us here at IIMHCO needing to postpone our 22-23 March Maternity Natural Health Symposium just five days out ... after two years of preparation ... was gutting. So many speakers and delegates with flights planned, and venue all paid for. Such extraordinary and unprecedented circumstances. But we truly count our blessings we are all well, and safe. We know *many* around the world are dealing with far FAR worse problems than a postponed event - and our thoughts and prayers are with them.

As an update to our overseas audience, the planned conference location of Auckland New Zealand still has its international borders closed to non-residents.

In the future it is strongly likely there will eventually be an Oceania and Trans-Tasman 'bubble' for the Southern Hemisphere destinations of NZ, Australia and the Pacific Islands being able to travel between each others' countries - but that is some time away.

It is impossible to gauge yet when the long-haul passenger travel will commence again for Australasia, Asia, the Americas, and Europe - so for now, we are all in a "Watch This Space" situation regarding when we will be holding the postponed conference, and its final format. In the meantime, the Venue and Airlines are holding the funds to reinstate the Symposium when we all have the Green Light from governments.

In the meantime, stay safe, and stay home. x
